

Sodade

Sentimental fable in the airs

Creation Minuit Compagny 2015

Synopsis :

Every stormy evening, an old man, exiled for a long time, approaches the sea side.
When the wind caresses his skin, he returns into his indelible memories.
A daydream of sweet nostalgia, not to ever forget, and continue to live whatever it takes.
Around an endless cable, four moving bodies, in balance, like the coming and going waves of past time.
...*Sodade*... is an ode to life, a fable in the airs, told by two musicians playing and singing on a unique circus structure.

Minuit Compagny in a few words...

As night falls, let's keep an eye wide open, curious and adventurous.

One that will resist the night. Because we need to dream together.

Minuit is a street performance art company advocating a poetic circus-like form of theatre, where music and scenography are centre stage of our creations.
